DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 2-5, 10-12 and 14-21 are rejected under 35 U.S.C. 103(a) as being unpatentable over Krockenberger et al. US 5,807,504.

3. The rejection set forth under 35 USC 103 in the paper mailed 4/4/07 is deemed proper and is herein repeated.

4. The newly amended claims and remarks filed in support thereof have been fully considered but fail to obviate the rejection of record.

5. Applicants primary point of contention is that the art fails to "specifically disclose the present alkyldietholamine." This is not persuasive. Applicants attention is directed to column 2 lines 35+ where the amine is described. Here the R groups of the compound are alkyl which can be interrupted by non-adjacent oxygen atoms. The selection of the interrupted R groups is suggested and obvious. The claimed compounds fall within the scope of this disclosure. As such, the claimed compounds are obvious. It should be pointed out that the claims are not limited to the "alkyldietholamine" but is open to any ethoxylated amide.

6. The alleged "outstanding results" in the specification have been fully considered. These fail to sufficiently rebut the prima facie case of record. These are not commensurate in scope with the claims and does not represent the closest art.

Conclusion

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
